

GOAL:

- To leverage my HTML/CSS, JavaScript, Python and other technical skills in a developer role, while contributing my creativity and analytical skills to my future team and company's success.

SKILLS/RELATED EXPERIENCE:

- HTML, CSS/SASS, JavaScript, jQuery, Ruby on Rails
 - Angular, Wordpress, Bootstrap, Jasmine, Karma
- Greeting Card, Travel Log, and Nutrition application built in JavaScript
- E-commerce site built in Ruby on Rails
- Multiple websites utilizing HTML5, CSS3, JavaScript and jQuery

CAREER EXPERIENCE:

Front End Developer, Pellego—Seattle, WA

March 2016-present

- Build powerful and dynamic features for real estate investors, with clean and organized code in Javascript, AngularJS, HTML5 and CSS/SASS
 - Financial proformas and graphs of cashflow projections, all updating in real time
 - Quick and streamlined user interface to efficiently handle large and complex data sources: contact forms, search listings, browse pages, saved and personalized user information
- Create page samples and wireframes, hold design meetings, and implement new features from the mock-up stage to deployment
- Lead and collaborate on decisions for product goals, business strategies, and financial analysis
- Created and managed the Pellego Help Center by writing and organizing content, designing the layout and features, and organizing our first customer service portals

Web Developer, Freelance—Seattle, WA

October 2015-present

- Build detailed websites with a focus on functional and responsive design
- Working in PL/SQL and JavaScript, utilizing API's, understanding marketing and website traffic analytics, coding Ruby on Rails applications
